## LED Street Light

**5 YEAR**  
**WARRANTY**

### Areas of application

- Urban roads -
- Express roads -
- Town roads -
- Residential area roads -
- Pedestrian crossings -
- Parking areas -

### Product Benefits

- 70% energy savings, short ROI period
- Up to 100, 000hrs @ L70, low maintenance cost
- World-class, certified quality components (LEDs, Drivers, etc.)
- The smooth back of the fixture is designed to prevent dust accumulation
- Tool-less opening of the driver box for ease of maintenance
- 5 years warranty

### Product Features

- Luminaire efficacy: Up to 199 lm /w
- Lifetime more than 100, 000 hours
- Impact resistance: IK09 /IK10
- Type of protection: IP66

## PRODUCT OVERVIEW

Note: Adapter is optional

-The above values are calculated for products with a CCT greater than 4000K and a CRI of 70. For products with a CCT of less than 4000K, or a CRI greater than 75, the values are approximately 5% lower than those stated above.  
 -The above values displayed are subject to a ±5% tolerance.  
 -Model No marked with an asterisk (\*) denote high-efficiency versions.

### Control Systems

#### Custom Dimming Profile

Intelligent luminaire drivers can be programmed to follow complex dimming profiles, allowing for customized combinations of time intervals and light levels without the need for extra wiring. The period during which the lights are switched on until they are switched off is used to implement the preset dimming profile. This custom dimming system achieves maximum energy savings while maintaining the required levels of lighting uniformity throughout the night.

#### Daylight Sensor /Photocell

Photocell or daylight sensors activate the luminaire when natural light drops below a certain level. They can be programmed to switch on during storms, on cloudy days (in critical areas), or only at dusk to ensure safety and comfort in public spaces.

### Smart Control System

#### Luminaire Controller Zhaga (optional):

This is an easy-to-install wireless device designed for remote control of LED luminaires. The device is equipped with Zhaga-compliant connectors and can control luminaires via DALI 2.0 or D4I interfaces. Now supporting LoRaWAN®, ZIGBEE and 4G networks, the controller's modern and compact design is ideal for a variety of street lighting situations.

#### Luminaire Controller NEMA (optional):

The Luminaire Controller NEMA is a remote LED luminaire control device compatible with ANSI C136.41 NEMA sockets. It can operate fixtures via DALI or 0-10V analog control interfaces and now also supports LoRaWAN®, ZIGBEE and 4G networks. This controller provides a reliable power connection via three rugged twist-lock contacts.

A sensor mounting position is reserved on the top to facilitate future installations
